Section 6

Spill or Leak Procedures

Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be irritating or harmful. Follow personal protective equipment recommendations found in Section 8 of this SDS. Additional precautions may be necessary based on special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred. Also consider the expertise of employees in the area responding to the spill.

Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation.

Absorb spillage to prevent material damage.

Section 7 Handling and Storage

Keep only in original container. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye Handling:

protection/face protection.

Store in corrosive resistant/... container with a resistant inner liner. Suitable for any general chemical storage. Storage:

Keep container tightly closed in a cool, well-ventilated place.

Storage Code: Green - general chemical storage

Control Parameters

Respirator Type(s):

Eye Protection:

Engineering Measures: Local exhaust ventilation or other engineering controls are normally required when

Lab coat, apron, eye wash, safety shower.

handling or using this product to avoid overexposure.

Personal Protective Equipment (PPE):

Respiratory Protection:

Respiratory protection may be required to avoid overexposure when handling this

product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. None required where adequate ventilation is provided. If airborne concentrations are above the applicable exposure limits, use NIOSH/MSHA approved respiratory protection.

Wear chemical splash goggles when handling this product. Have an eye wash station

available.

Skin Protection: Avoid skin contact by wearing chemically resistant gloves, an apron and other protective

equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving
